DUROPAL WORKTOPS

TAKING ROBUSTNESS AND VARIETY TO A NEW LEVEL

Duropal worktops are easy to process and extremely durable. They offer a wide range of decors, surface structures and core materials – making them the material of choice for modern, long-lasting and hygienic kitchen design.

- 33 exciting decors available as 38mm postformed worktops,
- 12 decors in a contemporary 20mm square edged worktop,
- 12 decors in the ultra-modern 12mm solid core compact worktop.

HPL surface
Duropal worktops are surfaced with genuine high-pressure laminate according to EN 438; hardwearing and easy to clean.

Glueline
Guaranteed moisture and heat resistant to EN 204. Only featured on postformed worktops.

Postformed edge
The profiled front edge of Duropal Quadra worktops is designed to help prevent liquid spills finding their way into drawers and cupboards. Please note that the Quadra postformed edge is available for a selection of 33 decors.

Certified to the highest standards
As a large producer of chipboard, we ensure that all our material carries the FSC certification, guaranteeing that it comes from properly environmentally managed and sustainable sources. We have also achieved independent FSC accreditation to provide surety for "chain of custody".

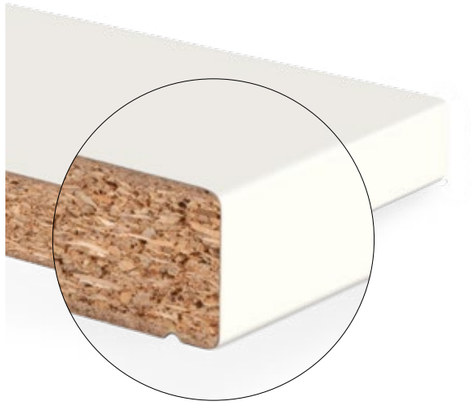
OVERVIEW OF WORKTOPS

Quadra profile

The Duropal Quadra profile, fashionable yet tried and tested, offers you unique product features and is available in this collection in 33 colourways.

- 3mm radius
- available as 38mm postformed edge
- core material: ClassicBoard P2 TSCA E05. Low emission particleboard core, type P2 conforming to EN 312.



Drip Groove

All worktops with a Quadra profile feature a unique v-groove seal which has been patented specifically for Duropal Worktops. This seal is designed to ensure a maximum of protection against moisture and steam.

General guidelines for processing Duropal worktops:

- Always use sharp tools.
- Circular saw blades with flat chamfer teeth (FZ/FA) or alternating teeth (WZ) achieve best results.
- Reduce the feed rate when cutting through the postformed edge.
- Spiral router cutters achieve best results.
- For finishing edges with Duropal HPL edging strip, trim and finish with 300 grit sandpaper.

This information is for guidance only and is based on our experiences with the processing of our products, it does not give any guarantee of final results; guidelines should be adapted to the situation depending on the tools available. Your tool supplier should be consulted to assist in the selection of the correct tools for best results. This information is not intended to and shall not be deemed to constitute a guarantee by us of any kind or character whatsoever.

Square Edged

A slimline worktop made up of a particleboard core and featuring decorative Duropal HPL on both faces. Both longitudinal edges of the worktop feature a matching laser edge.

- available as 20mm edge
- available in a selection of 12 decors
- core material: ClassicBoard P3 E05. Particleboard core, type P3.

Duropal Compact Worktop

A thin worktop with extraordinary properties. With its simple style it reflects the latest trends in interior design. A worktop which offers extraordinary durability, reliable functionality and timeless elegance.

- available in 12mm with white, grey and black core
- available in a selection of 12 decors

HIGH RESISTANCE

DUROPAL WORKTOPS – THE DURABLE CHOICE

Melamine resin is the hardest of all synthetically produced organic materials. This is the reason for the high scratch and wear resistance of Duropal HPL. The high impact resistance of the material is due to the elasticity of phenolic resin. These properties also explain the high resistance of HPL to chemicals and heat. However, the bottoms of saucepans and ovenware can become extremely hot and we recommend using a protective pad.

Cleaning and care instructions

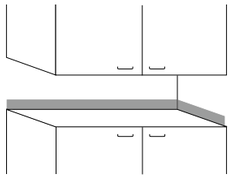
A major advantage of Duropal worktops is that the HPL surface makes cleaning so simple. Usually a moist cloth is sufficient, but use washing-up liquid to get rid of any grease. Stubborn dirt can be removed with an organic solvent such as methylated spirits or alcohol. There's nothing easier than cleaning and caring for Duropal worktops.

		Cleaning method
Light stains		dry or damp paper towels, a cloth or sponge
Normal stains	e.g. fat, oil and dirt particles, fingermarks, lime deposits, rust, juice, coffee, tea, wax, blood, universal marker, etc.	dry or damp paper towels, a cloth or sponge
Heavy stains	e.g. discolouration through long exposure to tea, coffee, fruit, juice, etc.	with an fat cleaning agend (see cleaning recommendation www.pfleiderer.com) and damp paper towels
	e.g. lead pencil, felt-tip pens, marker and ball-point pens, lipstick, crayons, wax, shoe polish, nicotine, nail varnish.	with an fat cleaning agend (see cleaning recommendation www.pfleiderer.com) and damp paper towels
	e.g. paint (water or solvent based paints, two-component paints, spray paints), varnish stains, printing ink	with water or an organic solvent. Remove two-component paints immediately.

- Please do not cut or chop directly on the worktop surface – always use a chopping board or worktop saver.
- Always place hot pans, ovenware and irons on a trivet or protective pad to protect the surface from the intense heat which can cause damage to the worktop if placed directly on the surface. The use of abrasive cleaners and pads, corrosive or aggressive cleaning agents should be avoided as they will have a detrimental effect on the worktop surface.
- The use of PVC aprons may possibly affect the durability of the HPL on the post-formed edge of worktops. This could lead to premature wear in high traffic work areas such as in front of the sink and hob.
- Kettles, coffee machines, fryers and any other heat or damp source should not be positioned directly over worktop joints. Constant changes in temperature could cause the joint to move and eventually fail.
- Cuts and scratches will be noticeable on dark decors and smooth finishes.
- Please ensure that due care is taken to correctly seal the product to prevent moisture ingress.

ACCESSORIES

HPL Upstands

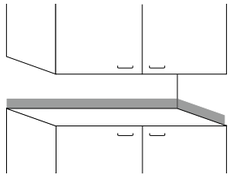


Surfaced in genuine Duropal high-pressure laminate produced with P3 moisture resistant chipboard core and available in the following size:

- 4,100x120x20mm (3mm postformed radius)

An ideal finishing touch for your Duropal high-pressure laminate postformed and square edged worktops offering another cost-efficient and hygienic alternative to tiling. Available to match all Quadra postformed worktop decors and 20mm square edged worktop decors.

Duropal HPL Compact Upstands

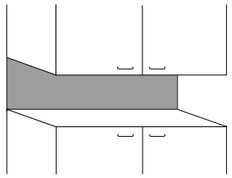


Duropal HPL Compact Upstands are available in the following size:

- 4,100x120x12mm (top edge bevelled)

This accessory offers an affordable and hygienic alternative to wall tiling. Available to match the 12 decors in the Duropal Compact Worktop range.

HPL MDF Back Panels



Consisting of an 8mm E1 medium density fibreboard (MDF) core surfaced with genuine Duropal high-pressure laminate manufactured to EN 438. Available to match all decors, in the following size:

- 4,100x640x9mm nominal (8mm MDF core)

Please ensure that due care is taken to correctly seal the product to prevent moisture ingress.
For installation behind hobs, check with hob manufacturer's fitting instructions to ensure that suitability and distance requirements are met.

SUSTAIN-ABILITY

WE ARE COMMITTED TO THE **UNITED NATIONS GLOBAL COMPACT**

Those who rely on wood as a raw material rightly expect an environmentally conscious "green" material. At Pfleiderer we want to do full justice to this commodity, therefore we have been offering an extensive range of low-emission and environmentally friendly products for many years. Sustainability – in addition to ecological, social and economic aspects – as well as the careful use of natural resources are permanent pillars of our corporate philosophy. Consistent circular economy and wood recycling at the highest technological level as well as independent evaluation of our procurement, production and logistics processes ensure that we optimally harmonise our ecological requirements ensuring that we offer our customers the best possible service, manufacturing and logistics processes as well as a corporate culture of accountability. We ensure that you can use our products with a clear conscience and recommend them to your customers.
