02. A NEW PRODUCT

ĒCLOS IS MADE OF LAYERS

LAYERS OF BEAUTY

Crafted with the INLAYR® technology, it brings portraits of nature into your kitchens and bathrooms.

LAYERS OF PERFORMANCE

ĒCLOS has been engineered with a groundbreaking composition that ensures resistance, stability and lasting performance.

LAYERS OF MATTER

We are rethinking surfaces from the inside out. ĒCLOS is crafted with recycled content and zero silica in its Eclectic Veins collection.

02. UN NUEVO PRODUCTO

INLAYR® DESIGN TECHNOLOGY

02. A NEW PRODUCT

INLAYR® DESIGN TECHNOLOGY

Introducing a new dimension of surfacing design, where robotic precision & layered decoration techniques meets art & engineering

MINERALS AND MATERIALS EXHIBIT DISTINCT EFFECTS DUE TO THEIR UNIQUE COMPOSITIONS

ROBOTIC DISTRIBUTION OF PARTICLES AND MATERIAL GRAINS

INTEGRATION OF 3D BODY LAYERED DECORATIVE TECHNIQUES

02. A NEW PRODUCT

LAYERS OF BEAUTY & DESIGN

A NEW DESIGN TECHNOLOGY TO CREATE UNIQUE VEINS & PATTERNS

The INLAYR® technology allows to create layered colours, patterns and textures that feel both natural and sophisticated.

LAYERED 3D BODY INTEGRATION

The result is a layered 3D body design integration, which preserves the aesthetic unity of the surface.

A NATURAL TOUCH & FEEL

A tactile experience full of Depth that feels authentic.

02. A NEW PRODUCT

LAYERS OF PERFORMANCE

SUPERIOR HEAT RESISTANCE

ĖCLOS withstands temperatures up to 220 °C, including direct contact with cookware immediately after use.

ENGINEERED TO PERFORM

Its advanced composition offers high resistance to impact from dropped cookware, heavy utensils, and daily collisions that occur in high-traffic workspaces.

02. A NEW PRODUCT

LAYERS OF MATTER

We are rethinking surfaces from the inside out. ĒCLOS is crafted with recycled content and zero silica in its Eclectic Veins collection. Designed for beauty. Made with a meaningful purpose.

ZERO SILICA*. DESIGNED FROM LESS

Eclectic Veins is the newest expression of ĒCLOS, our first collection made with zero silica*.

RECYCLED CORE WITHIN

By using up to 88% recycled content in its inner core, ĒCLOS balances durability with a more responsible sourcing.

A PROCESS POWERED BY NATURE

The ĒCLOS production is powered by 100% renewable, and 99% of the water electricity used is recycled.

* ĒCLOS is designed to be devoid of crystalline silica but may contain traces (<1%). Find safety details at osh.cosentino.com.

02. A NEW PRODUCT

A NEW SURFACE, MATTER AND DESIGN REIMAGINED

WITH INLAYR® TECHNOLOGY

ECLOS is the next generation of mineral surfaces, featuring a layered 3D body integrated design and superior heat resistance.

Thanks to its INLAYR® technology, its production combines minerals and recycled materials with a low-crystalline silica composition, through an advanced process of robotic engineering and integrated decorative techniques. Eclectic Veins is our first collection, with zero crystalline silica* in its composition.

The result is a high-performance material with realistic aesthetics, and a natural touch & feel, for indoor applications.

* ECLOS is designed to be devoid of crystalline silica but may contain traces (<1%). Find safety details at osh.cosentino.com.

BY COSENTINO

INLAYR® 3D BODY DESIGN TECHNOLOGY

A design technology that enables genuine 3D full-body integration.

REALISTIC AESTHETICS. A NATURAL TOUCH & FEEL

ECLOS has a natural touch and feel. A tactile experience full of depth that feels authentic.

ENGINEERED TO PERFORM

Its advanced composition offers high resistance to impact from dropped cookware, heavy utensils, and daily collisions that occur in high-traffic workspaces.

SUPERIOR HEAT RESISTANCE

ECLOS withstands temperatures up to 220 °C.

A ZERO SILICA* PRODUCT & A RECYCLED CORE

Eclectic Veins is our first collection with zero crystalline silica* in its composition. Made up to 88% recycled materials and selected minerals.

FOR INDOOR APPLICATIONS

ECLOS is designed exclusively for indoor applications, where its aesthetics and performance are maintained in optimal conditions

SANDR

ECLECTIC VEINS

A Landscape of Warm Beige and Golden Veins

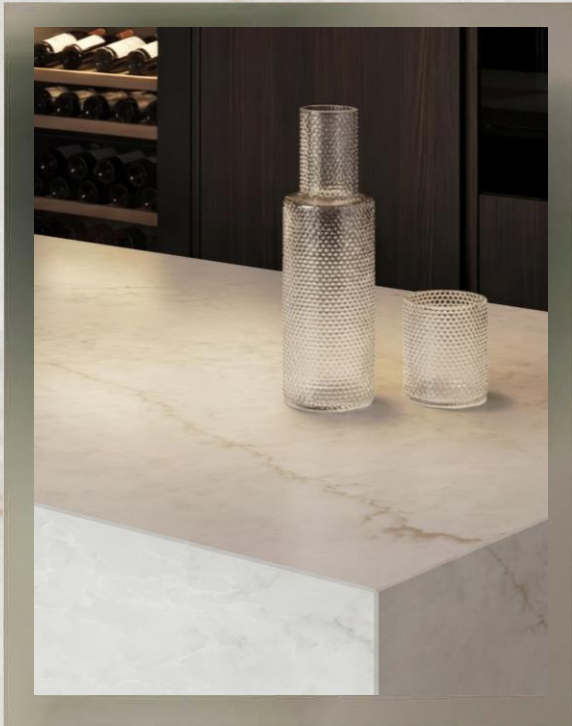

SANDR is a warm beige with golden undertones and soft organic veining that adds quiet depth. Its subtle texture brings harmony, warmth, and elegance to worktops, bathrooms and interiors.

ĒCLOS

VANCOR

ECLECTIC VEINS

Sand veining on a mineral background

Subtle lines in golden and copper tones run across a beige base with greyish nuances, evoking mineral landscapes shaped by the passage of time. Its delicate graphic adds texture, light and understated elegance, ideal for timeless interior surfaces and wall claddings.

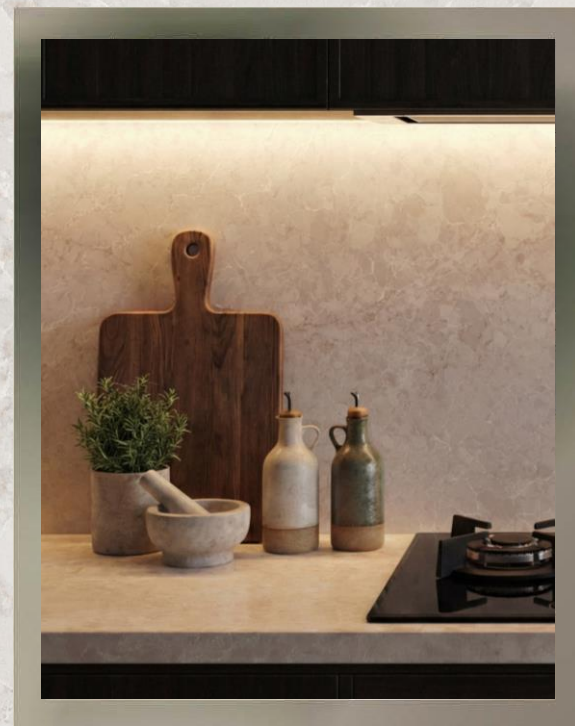

VANCOR

LUMER

ECLECTIC VEINS

Warm veils over a calm sea

A delicate interweaving of soft veining and diffused transitions extends across a luminous ivory background. Its warm, enveloping graphic brings subtle depth, filled with light, naturalness and serene elegance, creating balanced and tranquil interiors.

LUMER

ĒCLOS

VEILR

ECLECTIC VEINS

A warm suspended mist

Against a cream background, an ethereal texture of toasted nuances and mineral veils unfolds, flowing gently across the entire surface. Its warm, enveloping expression adds depth without creating harsh contrasts, resulting in serene elegance and a pleasant sense of harmony in interior spaces.

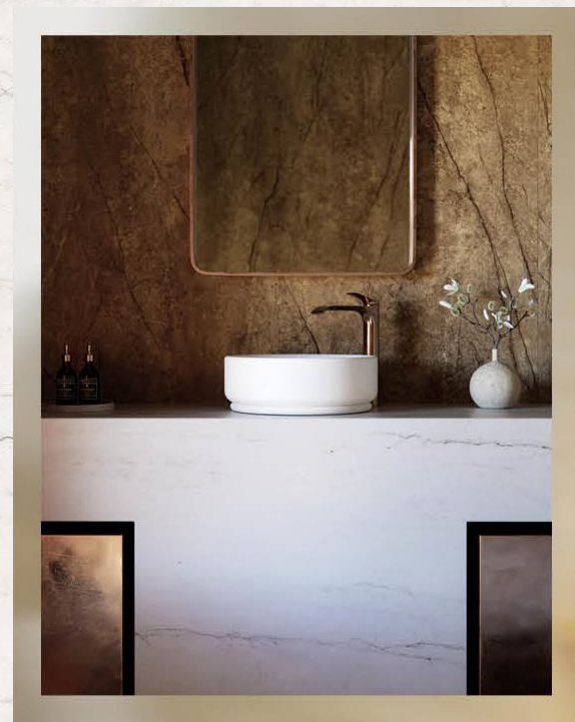

VEILR

IVORA

ECLECTIC VEINS

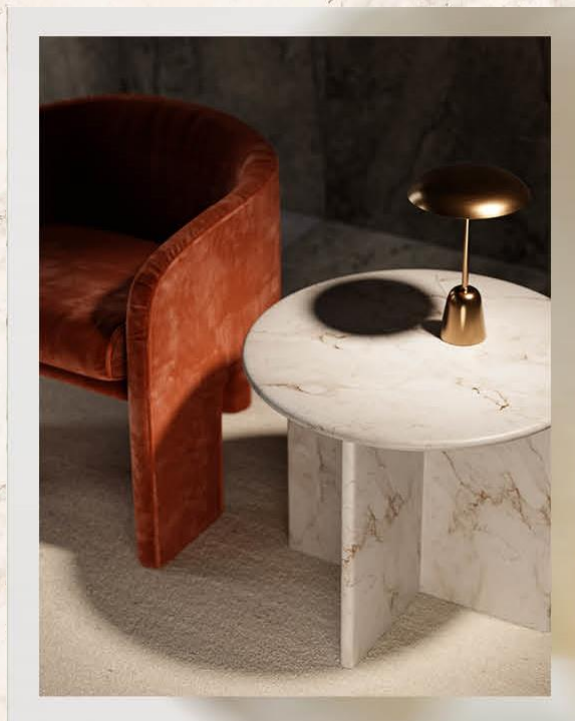

Natural geometry on a cream canvas

A striking yet elegant colour that features a network of thin, linear veins running throughout a subtle variation of a light cream canvas. Slightly darker grey and beige veins create an irregular & organic pattern.

LANDR

ECLECTIC VEINS

Layers of light and shadow

Layers of subtle golden veining weave light and shadow across the white background, enhancing its organic beauty and unique character. Soft, muted tones bring a calming, minimalist elegance, creating an understated luxury.

WONDR

ECLECTIC VEINS

Grey and Blue Layers in Striking Motion

A luminous white base is traced with striking grey and blue veins in motion that flow across the surface with intention, bringing a touch of light and personality that adds a sense of wonder to worktops and interiors.

TAJNAR

ECLECTIC VEINS

Organic Flow of Feathery Veins

A soft light beige background sets a calming tone, while delicate, feathery veins in a slightly darker shade weave through, adding gentle movement and a layer of organic depth.

BY
COSENTI
NO

LEGND

ECLECTIC VEINS

Lightning veins through the terrain

A flowing veined composition with rich, earthy layers. Muted terrain tones and browns convey calm sophistication. Lightning-like veins thread through the surface, adding character to any interior space.

PHANTOME

ECLECTIC VEINS

Layers of Copper in Dark Elegance

A dark, smooth black background creates a bold and elegant look, while warm green tones appear softly under diffused light. Copper veins with metallic accents add a touch of mystery and style.

A NEW BRAND

ÈCLOS

INLAYERED

MINERAL

SURFACES

ÈCLOS[®]

by COSENTINO

03. A NEW BRAND

A NEW BRAND

SOPHISTICATED

A brand positions itself as sophisticated and refined with its own visual universe.

MODERN

A brand that follows a contemporary yet modern code that shapes a new surfaces concept.

ASPIRATIONAL

A brand that redefines its positioning as an aspirational and high-end surface.

K&B DRIVEN

A brand that mainly aims towards kitchen and bathroom worktops as main application drivers.

A woman with long dark hair is seated on a wooden chair, leaning back with her hands resting on her thighs. She is wearing a vibrant red long-sleeved top and long gloves, paired with a bright orange leather vest and skirt. The background is a heavily textured, brown wall that resembles stone or aged paper. In the foreground, some dry, light-colored grasses are visible. The overall mood is sophisticated and artistic.
